CoCoPRESS!

Bad News:

Due to expansion in other areas of DNM Enterprises, Inc., and the need to streamline CoCoPRO!'s time demands, **this will be the last issue of CoCoPRESS with used product listings.**

No longer will you need to rush to the mailbox each month to see if that item you've been looking for happens to come in stock from one of our large-package purchases; no longer will you have to try to rush in an order and hope that no one has beaten you to that item of which there was only one in stock. No longer will you be disappointed when we can't find that out-of-production item you seek; no longer will you be frustrated that you can't sell or trade those few CoCo items that you no longer use, because CoCoPRO! doesn't buy small packages. We feel there's a better way to keep goods in circulation.

Good News:

Instead of receiving listings of a relatively limited number of those hard-to-find items each month, you will now receive a monthly issue of *UpTime*, an exciting new advertising publication for CoCo, OS9, and OSk enthusiasts. And, instead of just being limited to the selection and quantity of pre-owned goods we happen to have in that month, you will be able to choose from the offerings of dozens of classified ads...and you'll be able to search out that hard-to-find item with a *Want To Buy* ad, if you wish! Better yet, as a CoCoPress subscriber, you'll receive one **free** classified ad ($5 value) for each two months remaining in your subscription! Ads you place can be for items you wish to sell, items you wish to buy, or even non-computer-related goods and services!

And, there's even more...not only will *UpTime* contain the *CoCoPress Classifieds*, it will also bring you information on the latest commercial offerings and develpoments for your favorite computer, at least a month **earlier** than the mainstream CoCo "newspaper". Also, you'll see reviews of the latest products, information on regional CoCo shows, and much more. *CoCoPress* subscribers will receive the balance of their subscription in *UpTime* issues. Others can call (216) 758-7694 to subscribe.

We feel that this new publication, along with the user-to-user convenience of the classified ads, will provide our subscribers with a greater choice of locating hard-to-find items, and a convenient and inexpensive means of selling and/or trading goods that they no longer use. This, along with the latest information on new products and developments, should both keep you informed and keep our community **in touch.**

Used/surplus items are on sale!

While they last, most items from our used product categories are *drastically reduced* from their already-low prices! Everything must go!

Since many items have been marked down to the $1-5 level, and it does require a certain amount of time to process any order regardless of its size, we must impose a **$20 minimum order** for this special sale.

Some products may be listed as incomplete (i.e., disk or ROMpak without docs). These items will be indicated by **"IN"** as part of the stock number. On these items, all media is guaranteed to load, and all hardware guaranteed to work unless otherwise stated...but no technical support will be given.

And, as a special bonus, any order for **used** products that totals **$75 or more** will include a **free gift!** You can choose between **CoCo Graphics Designer Plus** (reg. $29.95) or **CoCoPRO! Solitaire for OS-9** (reg. $17.95) as your gift!

Also, feel free to take advantage of the **free classified ads** you're being given as a present *CoCoPress* subscriber. The number of free ads you'll have coming will be noted on the cover of this issue. The form for ad submission is inside the back cover.

F.Y.I.

Our hours have changed.

Sales and order status	(313) 482-8128	10 AM-6 PM Mon-Fri
Tech support	(313) 481-3283	2 PM-6 PM Mon-Fri

As reported to us just before press time, **the Atlanta CoCoFest**, sponsored exclusively this year by the Atlanta Computer Society, **will be held Oct. 3-4 at the Holiday Inn Northlake**. For vendor or ticket info, or further details, contact **Newton White** of the ACS at (404)325-5348 evenings, or call the ACS BBS at (404) 636-2991. See y'all there!

Another exciting publication for the CoCo, this one primarily geared toward OS9 and OSk enthusiasts, has just begun shipping. *The OS-9 Underground*, published by a division of Animajik Productions, looks very promising thus far, and has recently acquired the subscriber base of *68XXX Machines*, so the issues will be even more packed with info! For subscription or ad info, contact Alan Sheltra at (818) 761-4135.
